CONTENTS OF HEREDITAS, VOLUME 135 (2001)

277 Agafonov, A.V., Baum, B.R., Bailey, L.G. and Agafonova, O.V.
Differentiation in the *Elymus dahuricus* complex (Poaceae): evidence from grain proteins, DNA, and crossability.

247 Anamthawat-Jónsson, K.
Genetic and genomic relationships in *Leymus* Hochst.

1 Ayana, A., Bryngelsson, T. and Bekele, E.
Geographic and altitudinal allozyme variation in sorghum (*Sorghum bicolor* (L.) Moench) landraces from Ethiopia and Eritrea.

95 Ban, T. and Watanabe, N.
The effects of chromosomes 3A and 3B on resistance to Fusarium head blight in tetraploid wheat.

263 Barkworth, M.E. and Jacobs, S.W.L.
Valuable research or short stories: what makes the difference?

123 Baum, B.R., Johnson, D.A. and Bailey, L.G.
Defining orthologous groups among multicopy genes prior to inferring phylogeny, with special emphasis on the Triticeae (Poaceae).

119 Belyayev, A., Raskina, O. and Nevo, E.
Detection of alien chromosomes from **S**-genome species in the addition/substition lines of bread wheat and visualization of **A**-, **B**- and **D**-genomes by GISH.

61 Beskow, A.H., Rönnholm, J., Magnusson, P.K.E. and Gyllensten, U.B.
Susceptibility locus for epidermodysplasia verruciformis not linked to cervical cancer in situ.

65 Cavelier, L., Erikson, I., Tammi, M., Jalonen, P., Lindholm, E., Jazin, E., Smith, P., Luthman, H. and Gyllensten, U.
MtDNA mutations in maternally inherited diabetes: presence of the 3397 ND1 mutation previously associated with Alzheimer's and Parkinson's disease.

85 Chiappero, M.B. and Gardenal, C.N.
Inheritance of random amplified polymorphic DNA (RAPD-PCR) markers and their use in population genetic studies of *Calomys musculinus* (Rodentia, Muridae), the reservoir of Argentine Hemorrhagic Fever.

255 Elouafi, I., Nachit, M.M. and Martin, L.M.
Identification of a microsatellite on chromosome 7B showing a strong linkage with yellow pigment in durum wheat (*Triticum turgidum* L. var. durum).

205 Farooq, S. and Azam, F.
Co-existence of salt and drought tolerance in *Triticeae*.

211 Farooq, S. and Azam, F.
Production of low input and stress tolerant wheat germplasm through the use of biodiversity residing in the wild relatives.

243 Hernández, P., Dorado, G. and Martín, A.
Cross-species amplification of the *Hordeum chilense* genome using barley sequence-tagged-sites (STSs).

145 Kota, R., Varshney, R.K., Thiel, T., Dehmer, K.J. and Graner, A.
Generation and comparison of EST-derived SSRs and SNPs in barley (*Hordeum vulgare* L.).

217 Lasa, J.M., Igartua, E., Ciudad, F.J., Codesal, P., García, E.V., Gracia, M.P., Medina, B., Romagosa, I., Molina-Cano, J.L. and Montoya, J.L.
Morphological and agronomical diversity patterns in the Spanish barley core collection.

41 Linde-Laursen, I. and Seberg, O.
Karyotypes of *Elymus scabrifolius* (Poaceae; Triticeae) from South America studied by banding techniques and in situ hybridization.

175 Lopez, C.G., Banowetz, G., Peterson, C.J. and Kronstad, W.E.
Differential accumulation of a 24-kd dehydrin protein in wheat seedlings correlates with drought stress tolerance at grain filling.

75 Lundqvist, E. and Andersson, E.
Genetic diversity in populations of plants with different breeding and dispersal strategies in a free-flowing boreal river system.

13 Maffei, E.M.D., Pompolo, S.D.G., De Oliveira Campos, L.A. and Petitpierre, E.
Sequential FISH analysis with rDNA genes and Ag-NOR banding in the lady beetle *Olla v-nigrum* (Coleoptera: Coccinellidae).

193 Martínez, F., Niks, R.E., Moral, A., Urbano, J.M. and Rubiales, D.
Search for partial resistance to leaf rust in a collection of ancient Spanish wheats.

199 Martínez, F., Niks, R.E. and Rubiales, D.
Partial resistance to leaf rust in a collection of ancient Spanish barleys.

111 Martínez, F., Niks, R.E., Singh, R.P. and Rubiales, D.
Characterization of *Lr46*, a gene conferring partial resistance to wheat leaf rust.

19 Martínez, E.J., Urbani, M.H., Quarin, C.L. and Ortiz, J.P.A.
Inheritance of apospory in bahiagrass, *Paspalum notatum*.

233 Monte, J.V., De Nova, P.J.G. and Soler, C.
AFLP-based analysis to study genetic variability and relationships in the Spanish species of the genus *Aegilops*.

115 Muramatsu, M.
Features of the F_1 hybrids of *Hystrix longe-aristata* and two Japanese *Elymus* species.

35 Norry, F.M., Bubliy, O.A. and Loeschcke, V.
Developmental time, body size and wing loading in *Drosophila buzzatii* from lowland and highland populations in Argentina.

71 Novello, A. and Perez, T.
Asymmetric staining of *Ctenomys* chromosomes after treatment with *Alu*I restriction nuclease.

101 Ohta, S. and Morishita, M.
Genome relationships in the genus *Dasypyrum* (Gramineae).

27 Pagliarini, M.S., Carraro, L.R., De Freitas, P.M., De Victor Adamowski, E., Batista, L.A.R. and Valls, J.F.M.
Cytogenetic characterization of Brazilian *Paspalum* accessions.

139 Pestsova, E.G., Börner, A. and Röder, M.S.
Development of a set of *Triticum aestivum–Aegilops tauschii* introgression lines.

171 Prieto, P., Ramírez, M.C., Ballesteros, J. and Cabrera, A.
Identification of intergenomic translocations involving wheat, *Hordeum vulgare* and *Hordeum chilense* chromosomes by FISH.

187 Porfiri, O., Torricelli, R., Silveri, D.D., Papa, R., Barcaccia, G. and Negri, V.
The *Triticeae* genetic resources of central Italy: collection, evaluation and conservation.

161 Rubiales, D., Niks, R.E., Carver, T.L.W., Ballesteros, J. and Martín, A.
Prospects for exploitation of disease resistance from *Hordeum chilense* in cultivated cereals.

271 Rubiales, D., Ramirez, M.C., Carver, T.L.W. and Niks, R.E.
Abnormal germling development by brown rust and powdery mildew on *cer* barley mutants.

51 Semagn, K., Stedje, B. and Bjornstad, A.
Analysis of genetic diversity and structure in Ethiopian populations of *Phytolacca dodecandra* using RAPD.

183 Soliman, M.H., Rubiales, D. and Cabrera, A.
A fertile amphiploid between durum wheat (*Triticum turgidum*) and the × *Agroticum* amphiploid (*Agropyron cristatum* × *T. tauschii*).

239 Tolmay, V.L.
Resistance to biotic and abiotic stress in the Triticeae.

153 Vershinin, A.V., Alkhimova, A.G., Heslop-Harrison, J.S., Potapova, T.A. and Omelianchuk, N.
Different patterns in molecular evolution of the *Triticeae*.

227 Wei, W., Bilsborrow, P., Hooley, P., Fincham, D. and Forster, B.
Variation between two near isogenic barley (*Hordeum vulgare*) cultivars in expression of the B subunit of the vacuolar ATPase in response to salinity.
